1993 SUBJECT INDEX

***Materials Management in Health Care*, Vol. 2**

AMBULATORY CARE
A snapshot view of radiology non-labor expenses 11/93:52
Is there a role for materials managers in supplying home care programs? 7/93:84
Networks shake the world of materials management 12/93:16
News Update 10/93:8
Safe devices II: Meeting the act's tracking portion 12/93:34
To centralize or not? It depends on the network 12/93:18

AMERICAN HOSPITAL ASSOCIATION
AHA Annual Meeting: Policymakers debate the future of health care 4/93:13
Chairman-elect designate eyes the future of health care and the AHA 8/93:14
News Update 3/93:6
Safe devices II: Meeting the act's tracking portion 12/93:34
Suggestion to FDA: Cut Devices Act paperwork by eliminating buyers' reports 12/93:36
The AHA's Third National Symposium on Health Care Safety and the Environment 1/93:25

AMERICAN SOCIETY FOR HEALTHCARE CENTRAL SERVICE PERSONNEL
1994 board of directors and outgoing board members 10/93:12
ASHCSP Conference guide 10/93:46
ASHCSP honors the best of the best 12/93:10
ASHCSP offers new recommended practice for patient care equipment 9/93:42
ASHCSP President's Letter 1/93:14; 4/93:12; 6/93:12; 8/93:12; 10/93:12; 12/93:10
News Update 5/93:8
Two new publications available from ASHCSP 8/93:12

AMERICAN SOCIETY FOR HEALTHCARE MATERIALS MANAGEMENT
1993 ASHMM Annual Conference watch 5/93:6
ASHMM addendum 12/93:8
ASHMM Conference guide 7/93:46
ASHMM honors outstanding members at 1993 annual conference 10/93:10
ASHMM links hospitals to provide comparative performance data 8/93:34
ASHMM miscellany 2/93:7
ASHMM President's Letter 1/93:12; 2/93:7; 3/93:8; 4/93:10; 5/93:6; 6/93:12; 7/93:14; 8/93:10; 9/93:10; 10/93:10; 11/93:12; 12/93:8
ASHMM's Johnson advances to executive director position 9/93:10
Assessing Your Materials Management Operations video and program 1/93:12
How to apply for committee membership 11/93:12
New educational offerings from ASHMM 8/93:10

BLOOD-BORNE PATHOGENS STANDARD
Buying PPE: Consider employees' concerns 5/93:24
Hospital 'field trip' turns fear of OSHA into 'healthy respect' 2/93:8
Monitor 5/93:42; 12/93:58
Questions & Answers 7/93:76

CAREERS/PROFESSIONAL INFLUENCE
Breaking away from on-the-job stress 6/93:18
Collaborative networks demand broader management skills 12/93:17
Debunking myths in materials management 11/93:40
Health reform will give department managers closer ties with the CEO 10/93:56
Networks shake the world of materials management 12/93:16
On-the-job satisfaction: a health care worker's 12-step program 5/93:46
Professional stereotyping can stall good efforts — but there's a cure 9/93:12
Stats 5/93:60
When the boss criticizes: 14 steps to personal and professional growth 7/93:68

CARTS
Easing supply traumas in emergency units 4/93:32
Five steps to a better case cart system and reduced OR inventory 8/93:36

CENTRAL SERVICE
A close-up look at laparoscopic instrument costs 11/93:28
CS survey: Are you equipped? 3/93:16
Custom pack program saves jobs, money 12/93:30
Effective reprocessing: A key to instrument longevity 10/93:60
Hospital system's EtO consolidation adds new meaning to "central" service 11/93:46
Laparoscopic instrument costs: A view from the other side 11/93:30
Letters to the Editor 11/93:14,16
Materials management, central service weeks help build team spirit 8/93:18
Microsurgical instrument systems promote handling with care 6/93:27
News Update 5/93:8; 11/93:6
Poll: Do you give internal customers a fair shake? 5/93:16
Poll: CS has varying responsibility for patient care equipment 9/93:40
Procedures to follow when conducting an operational audit at your facility 7/93:63
Questions & Answers 1/93:40; 5/93:52; 8/93:39; 10/93:66; 12/93:52
Replacing a sterilizer: Plan ahead 4/93:26
Tougher glutaraldehyde requirements: What CS technicians need to know 5/93:36
Use these questions to customize your own audit work program 7/93:64
Using operational auditing to smooth systems in central service 7/93:62

CHARGING METHODS
From sticky methods to bundled charges: the change process 10/93:22
News Update 5/93:10; 6/93:6
Redesigning a charging system: one hospital's experience 2/93:18
Study: Hospitals improve ability to track charges 7/93:16

CHLOROFLUOROCARBONS, HYDROCHLOROFLUOROCARBONS (See STERILIZATION)

CLINICAL DEPARTMENTS (See also OPERATING ROOM)
A snapshot view of radiology non-labor expenses 11/93:52
Beware of spinal implants' hidden costs: 'loaners' at a premium price 10/93:54
Crucial issues in critical care consumables 10/93:40
Easing supply traumas in emergency units 4/93:32
Florida cardiac cath lab trims fat and saves more than $320,000 5/93:44
Here's how to avoid paying too much for spinal implant products 10/93:54
Is there a role for materials managers in supplying home care programs? 7/93:84
Matching patient needs, price, quality, helps to cut implant costs 1/93:16
MDs, administrators team up to standardize, cut ortho implant costs 9/93:44
Nine ways to do a better job of supplying emergency departments 4/93:34
Point-of-use inventory in cardiac cath labs 10/93:30
Recycled X-ray fixer saves on chemicals, fines 11/93:34
Selecting a patient monitor vendor: some danger signs 7/93:42
Sophisticated bidding process yields savings in hospital lab supplies 7/93:77
Tips for buying patient monitors 7/93:40

CODES, STANDARDS
Buying PPE: Consider employees' concerns 5/93:24
Do receiving and sterile storage mix? Only with great care, say CS experts 4/93:36
First lady lauds hospitals; promises antitrust relief 10/93:14
How to purchase safer needle devices 4/93:20
Letters to the Editor 11/93:14
Monitor 1/93:48; 2/93:25; 4/93:18; 5/93:42; 6/93:36; 7/93:18; 8/93:27; 9/93:16; 10/93:20; 11/93:24; 12/93:58
New MSDS format could make safety data easier to understand 6/93:14
News Update 4/93:8; 5/93:10; 6/93:6; 7/93:6; 10/93:6
OSHA consulting service offers free advice 7/93:33
Questions & Answers 1/93:40; 5/93:52; 7/93:76; 12/93:52
Regulatory limits on silver discharge depend on where you live 11/93:36
Safe devices II: Meeting the act's tracking portion 12/93:34
Suggestion to FDA: Cut Devices Act paperwork by eliminating buyers' reports 12/93:36
Tougher glutaraldehyde requirements: What CS technicians need to know 5/93:36
What to expect if OSHA inspects 7/93:32
What every manager needs to know about the Family Medical and Leave Act 12/93:12

COLLABORATIVE RELATIONSHIPS
Chairman-elect designate eyes the future of health care and the AHA 8/93:14
Changes run deep in relationships with sales reps 12/93:22
Collaborative networks demand broader management skills 12/93:17
First lady lauds hospitals; promises antitrust relief 10/93:14
Hospital system's EtO consolidation adds new meaning to "central" service 11/93:46
Hospital 'field trip' turns fear of OSHA into 'healthy respect' 2/93:8
If they could put a man in outer space, why not a "man-on-the-floor"? 5/93:18
In pursuit of logistics integration 7/93:22
Meaningful relationships: survey implications for today and tomorrow 12/93:24
Minority purchasing program aims to strengthen community ties 6/93:16
Monitor 5/93:42; 7/93:18; 10/93:20; 11/93:24
Networks shake the world of materials management 12/93:16
News Update 1/93:6; 2/93:6; 3/93:6; 4/93:6; 6/93:6,8; 7/93:6; 8/93:8; 9/83:6; 11/93:6,8
Power failure lights up spirit of cooperation between hospitals 11/93:22
The pursuit of integrated logistics in the real world: one example 7/93:23
To centralize or not? It depends on the network 12/93:18

COMPENSATION
Above-average pay hikes continue, but not for long 9/93:22
Health reform will give department managers closer ties with the CEO 10/93:56
What every manager needs to know about the Family Medical and Leave Act 12/93:12

COMPUTERIZATION, BAR-CODING, EDI
12 steps to EDI's full advantages 6/93:24
ASHMM links hospitals to provide comparative performance data 8/93:34
Computer survey: gains made, but work remains 1/93:20
New data base offers product price comparison 8/93:44
News Update 1/93:8; 2/93:6; 4/93:6; 5/93:8; 6/93:6,8; 7/93:8,10; 11/93:6,8

Converting From Exchange To Par-level?

Replace supply carts with efficient Par Stor® wire baskets.

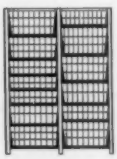
Par Stor modular, high density storage system:

- Stores far more in less space than conventional shelving;
- Makes a brighter, cleaner, more organized storage area;
- Offers quick access to supplies;
- Has a flexible, modular design that fits most any shape of storage room;
- Ideal for bar code systems.

Compare with conventional shelving capacities.

Standard shelving utilizes approximately 40% of available space.

Par Stor basket storage system utilizes approximately 90% of available space.



Call, FAX or write for full-color literature and the name of the nearest Amcart space planning expert.

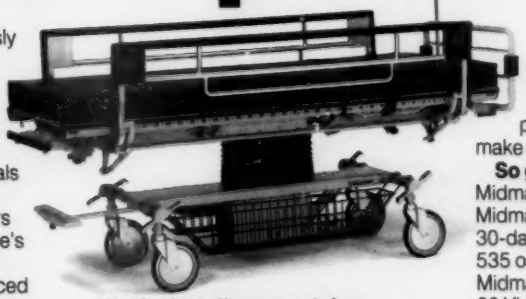
You worry about your patients.

Patients and staff can be seriously injured by worn out or poorly designed stretchers. The Midmark 535 PACU Stretcher/Bed gives you peace of mind. How? Before we built the 535 we talked to nursing professionals about what they wanted. And, Midmark studied other stretchers and avoided *their* mistakes. Here's what you get.



No transfer gap. The advanced design of Midmark's Tuck-Away Side Rails eliminates dangerous transfer gap from stretcher to bed without the need for transfer boards.

Won't pinch fingers or tubes. Midmark's superior engineering has eliminated the dangerous pinch points found in scissors-type side rails and lift systems.

Infection control. No hidden, boxed-in areas to harbor infectious materials. Midmark's one-piece top and enclosed hydraulics make cleaning easier.

So get peace of mind. Get Midmark. Call 1-800-MIDMARK or your Midmark Representative for your free 30-day demonstration/evaluation of the 535 or any of the standardized, full line of Midmark stretchers. Midmark Corporation, 60 Vista Drive, Versailles, OH 45380.

Because we care.

NEW "ALL-DAY" PROTECTIVE GLOVE LINERS

The ultrathin protective liners will change the way you feel about latex gloves. Enjoy unequalled comfort and control all day and avoid allergic reactions, clamminess and sweating. The gloves combine thinness, lightweight, close fit and natural sensitivity. The ergonomic design and stretch knit address hand strain and user discomfort. One ambidextrous size fits all and are washable for repeated use. The liners eliminate the need for powder or powdered gloves and stay on while removing overgloves. The smooth finish facilitates easy slip on and removal of gloves. Product Code #3110. 1 Pkg. (10 units/5 pair)
